

Probate Registry E-Service

Online Service for Lodging Searches

Modernizing the Probate Registry

The online search service is a step towards the modernisation of the Probate Registry. Attorneys can now access the online search platform to lodge probate searches. Once a search request is submitted, the system provides a date of search completion to the Attorney. If the date of death on the death certificate is before 1987*, the search will be completed within 20 working days. If the date of death falls within the year 1987* or after, the search will be completed within 3 working days. Once the search is complete, the **search results are valid for 90 days.**

**date will change as data entry is increased*

How Does It Work?

STEP 1: Register Online

To access the Probate Registry E-Service, Attorneys must register an account by visiting <https://probate.ttlawcourts.org/>.

To sign up, Attorneys must provide the following information:

- Name
- Email Address
- Bar Number
- Date of Admission
- Law Firm (if applicable)
- Office Address
- Telephone Contact

STEP 2: Begin Search

Once registration is successfully completed, Attorneys can login to access the Online Search Service where requests can be made.

What are the Benefits to this New Service?

✔ **It's Convenient**

Skip the lines and over the counter hassle. Now Attorneys can log in to the Online Search Service from their computers or digital devices anytime and anywhere.

✔ **It's Secure and Confidential**

The new Online Search Service is secure and confidential. With personal log-ins, information regarding each Attorney's search can only be accessed by holders of the specific username and password.

✔ **It Ensures Accountability**

Attorneys now have an electronic record of all their search results. All searches can be viewed via the search history feature on the dashboard system.
